RE: USA vs Reyes Daniel Ruiz

Your Honor:

My name is Arturo Reynoso Méndez, currently I work as the manager of a software project in Guadalajara, Jalisco, México. All my life I have been in México and working in Guadalajara. I have known Reyes since childhood, we were classmates and friends in kindergarten and elementary school, and although we did the rest of our education in different schools, we never neglected our friendship.

Like Reyes, I am from Moyahua, Zacatecas, Mexico. In Moyahua, all the people knew him, he is a very affectionate person with the inhabitants of the town. Reyes and I shared a lot of time together, we had great anecdotes as friends, at the same time we shared curiosity about technology issues (Electronics, Computing), which reinforced our friendship. We liked to see and read articles of a technological nature. He was my best friend.

I found out that Reyes was involved in a somewhat serious topic, since I saw a news online, and when I saw his name I was immediately stunned. I instantly contacted him to find out the truth of the facts. I gave him all my moral support, it was everything I could do from Mexico.

I know Reyes and I know that his curiosity about technology led him to make a mistake, a mistake that himself has already confessed, but I also know that he would never misuse any information that he has obtained. Therefore, I think Reyes is completely sorry for his actions, thus I think he deserves another chance to correct his life.

Sincerely:

Arturo Reynoso Méndez.
